

gRPC

38.39912033969115

false

```
{  
  "time": 1683485985492,  
  "value": 38.39912033969115,  
  "available": true  
}
```

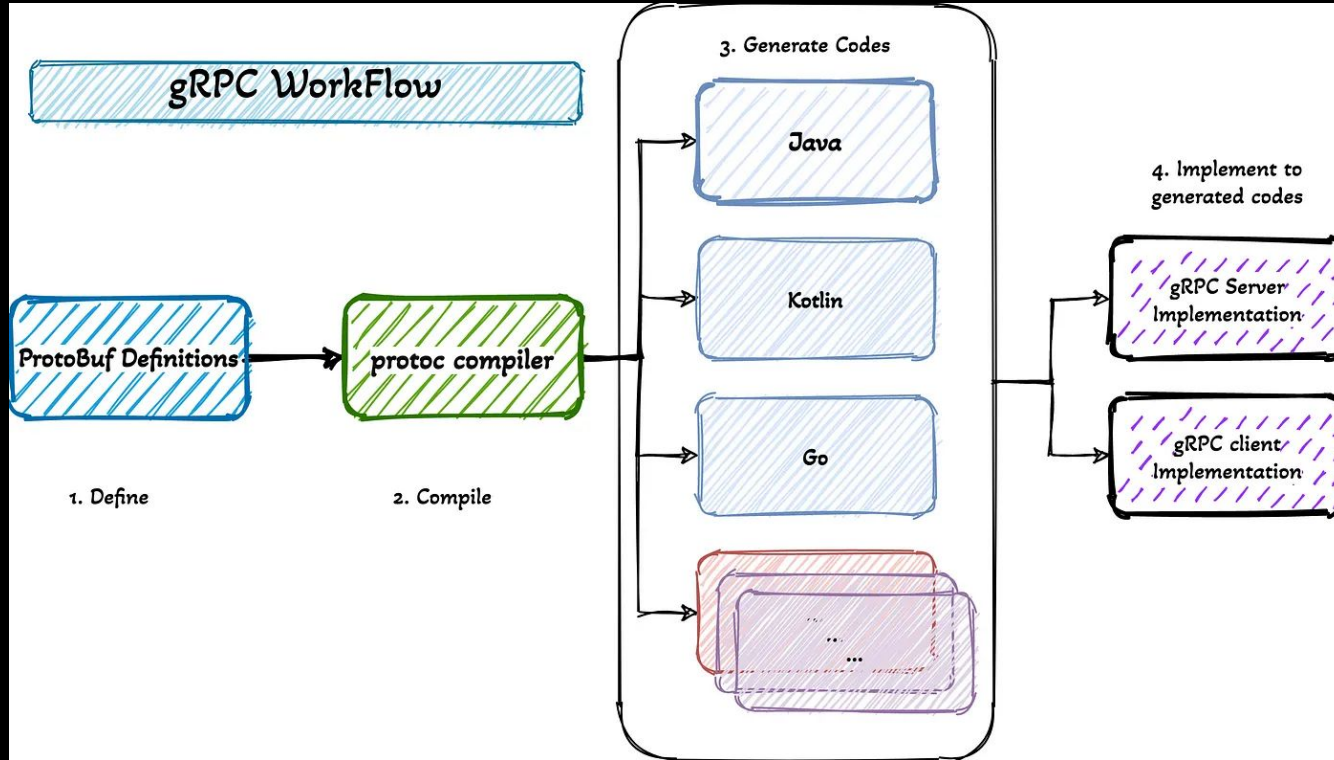

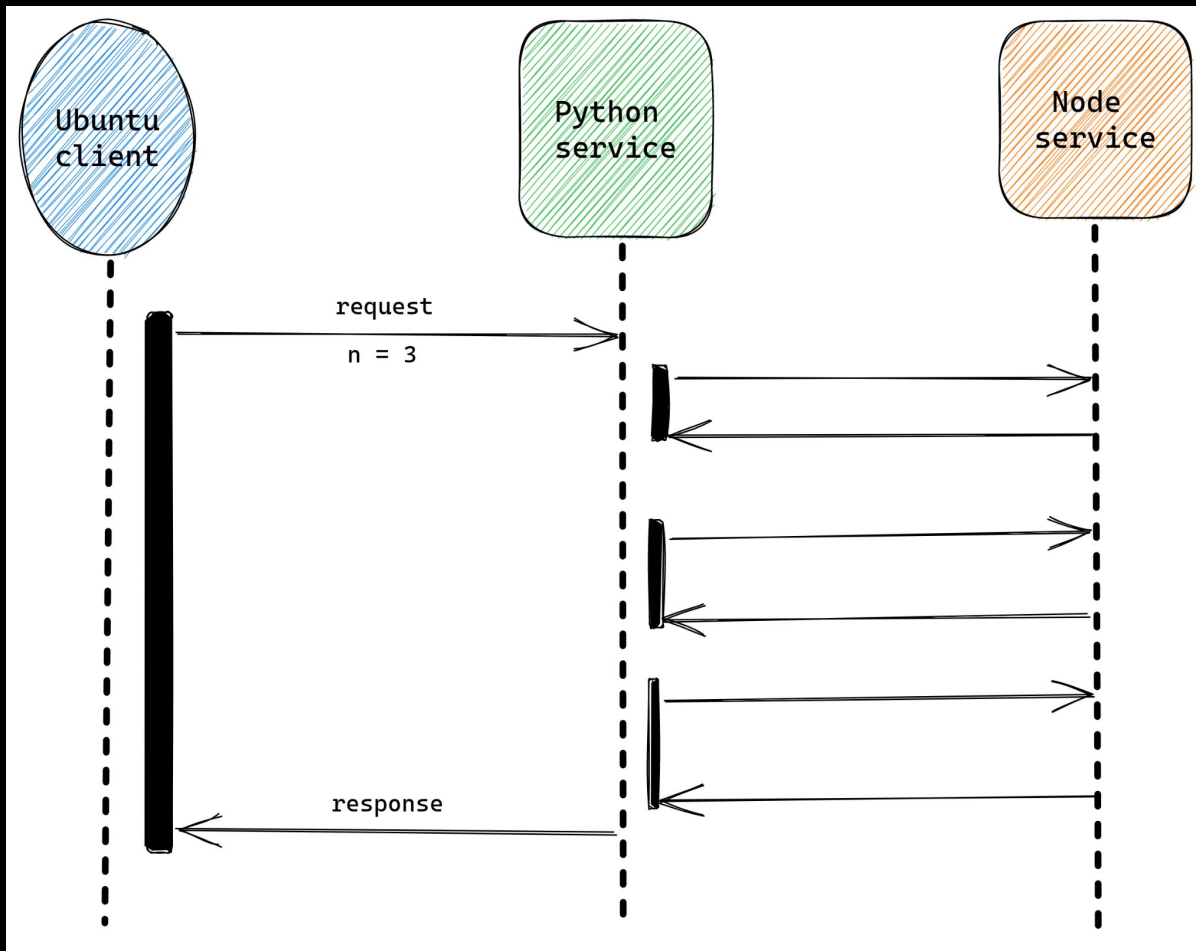

Exchanging data over network may
became a bottleneck for
microservice architecture

```
message DataEntry {  
    int64 time = 1;  
    double value = 2;  
    bool available = 3;  
}
```

gRPC Remote Procedure Call

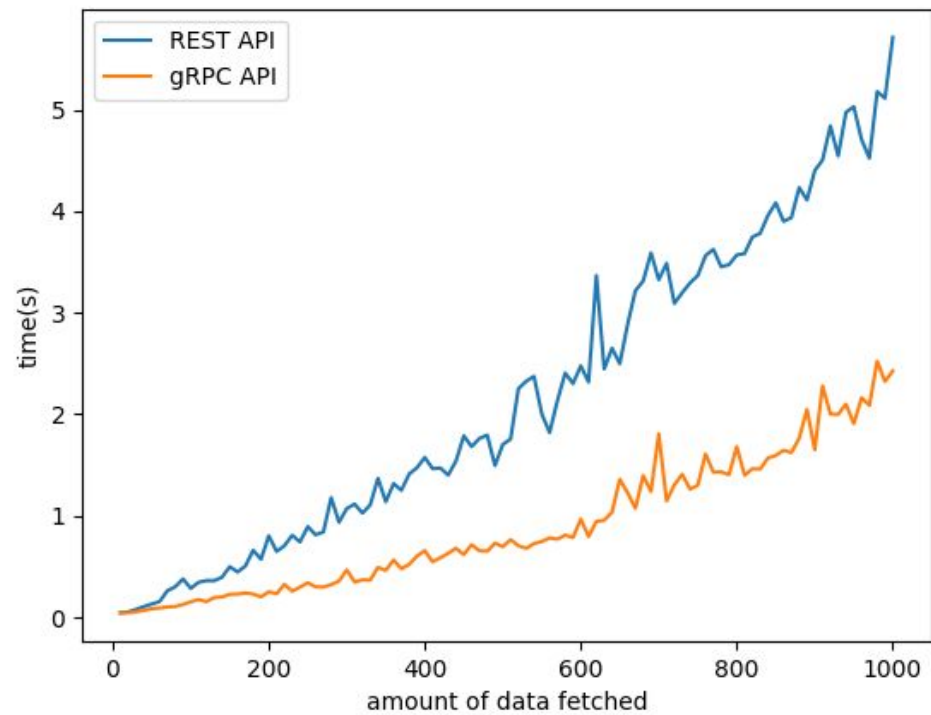

- Language and platform agnostic
- Uses Protobuf
- HTTP2.0

The system is implemented

- **REST**
- **gPRC**
